**Tree and Shrub Removals-**In the June 3rd and 17th eBlasts to owners, there was a call for Tree and Shrub removal requests. These requests should have specifically asked owners in Managed neighborhoods for their requests, and for all owners to request removal of dead and dying trees on Master Common areas.

We should have made it clearer if you live in a single-family home, you are responsible for the removal of dead or dying trees and shrubs on your property. A form is available on the RECOA website which can be used for an owner to request permission from ARC to remove a tree

We apologize if this has caused confusion.

**For owners in Managed neighborhoods that are requesting tree removal or shrub removal/replacements, please be advised:**

RECOA has gone out to bid for the first phase of the removal and replacement requests in Managed Neighborhoods. Any request that came in after 6/17/22, will be added to a second list. If there is remaining budget, RECOA will go out for a second bid for those removals.

For all owners requesting removal of a tree located on Master Common Area, please send these requests to Owner Services and we will forward your requests to the CWP committee.

For all owners, please contact [Ownerservices@eagle-crest.com](mailto:Ownerservices@eagle-crest.com) or (541) 548-9300, for any questions on this information, thank you.
