

Community Wildfire Protection Committee Notice

Your **Community Wildfire Protection Committee (CWP)** wants you to know about a near term Ladder Fuel Reduction project effort in work for the Month of March. Note the following:

Collection and disposal of Winter Storm Damage Ladder Fuels. Annually as a part of our Wildfire Protection Program, we survey for damaged trees that can contribute to Ladder Fuel wildfire protection activity. We do this task after 28 February. This Winter season is no exception, and many of you have observed compromised/damaged trees in our Common Areas. On 2-3 March, CWP will be trimming and staging debris from damaged trees in Common Areas on both East and West Ridge. Then , in early--mid March, we will have a Contactor on-site to process the materials. Please, use caution and watch for this task activity when using Eagle Crest Boulevard, William Lyche Drive, and the Community Pathways.

Temporary Closure of Cycle & Walking Path

Homeowners should be aware that Oregon Water Utility (OWU) will have to temporarily close the cycle and walking path alongside Eagle Crest Boulevard as it runs beside the worksite for their new well supplying Eagle Crest.. OWU is adding a new power transformer and running electrical conduit to the well site that requires a trench through the pathway to be cut and then made good. The path will be blocked off and signs posted.

This work is currently planned to begin in the week commencing February 27th and is expected to take two weeks.

Eagle Crest Golf Course

We have been notified that owners have been walking their dogs on the golf course and have been leaving doggie bags full of feces on the golf course instead of discarding them in the proper locations. We have also received notice that owners are walking on the golf course disrupting the flow of normal golf course activities.

Owners are not allowed to walk on the golf course at any time, unless playing golf. This area is not RECOA owned property and is not open to owner access. Please make sure your dog is always on leash and you are walking on the RECOA walking paths not golf course property. We also ask that you please make sure you are picking up and discarding your dog's feces into the doggie stations provided by RECOA.

Thank you,
Eagle Crest Golf Course

New Sports Center Access Cards Update

As announced in November 2022, the Eagle Crest Sport Center began issuing NEW access cards to Eagle Crest property owners. Effective March 1st, 2023, the old owner cards will no longer allow access to the facilities. If you have completed the information form and photo taken, at either the Resort or Ridge prior to February 15th, your card is ready for you. If you have not started the process, please stop by and do so as soon as possible. Cards take several days to process and make. Owner photos must be taken prior to receiving new cards. ID required.

Unaccompanied Guest Passes - Effective February 21st the OLD Eagle Crest guest pass site will be removed. Going forward all unaccompanied guest passes will be handled through the new sports center access program. Owners must have their new access cards to participate in the new unaccompanied guest pass program. No temporary cards will be issued by the sports centers for unaccompanied guests. As always, if you accompany your guests, you do not need passes. Please contact the sports center directly at the contact information copied below, with any questions on the information above.

For questions contact the Resort Sport Center: ecsportscenter@eagle-crest.com or by telephone Sunday through Friday Only (NO SATURDAY CALLS PLEASE) 8 am to 4 pm, 541-923-9627.

Thank you,
Eagle Crest Sports Center
